

7.1.2. The Institution has facilities for alternate sources of energy and energy conservation measures

The college has thought of energy conservation to the best possible extent.

- As a part of the continuous process in the first step, the college has installed / at many places replaced the conventional lights by 183 LED tube lights and 12 LED bulbs in the college. The bills are attached hereto. The LEDs are energy savers.

2. There are sign boards displaying 'save electricity', 'switch electrical gadgets when not in use'.

Display: to save electricity

3. The maximum power consumption is expected in the laboratories. So the laboratory staff / teaching staff takes care to ensure that the switches are off when ever electricity is not required.
